September 2017

A new service to  
help improve your  
family's wellbeing.

## WHAT IS THIS SERVICE?

This is a counselling and support service for children and families facing difficulties.

Your support team member will assist you and your family to form **new ways** to respond to and **resolve problems** and **build a safer home environment**.

## WHAT DOES THIS MEAN FOR MY FAMILY?

All family members needing assistance will receive it.

Your support team can be contacted 24 hours a day, 7 days a week, depending on your family's needs.

Your support team member will visit you in your home, a minimum of three times a week.

Your support team member will work with you on your family's plan to achieve your goals.

You will be provided with counselling and support sessions for 6-9 months, depending on your family's needs.

Your caseworker will:

**Speak** with you about a referral to receive this service.

**Work** alongside your support team.

**Maintain** contact with your family, while you are receiving this service.

## WHAT WILL HAPPEN IN VISITS WITH MY SUPPORT TEAM MEMBER?

Your support team member will:

 **Spend time** with your family to understand your strengths and needs.

 **Create a plan for your family** through regular counselling and support sessions.

 Build on your family's strengths to **develop positive and safe ways** to communicate and problem solve.

 Work with you to **build wider support networks** in your family and community.

 **Talk about your progress** to create a safer family environment.

 **If needed, provide treatment** for family members who are experiencing trauma, mental health problems, substance misuse and anger management problems.
