## KEY:

● <b>Aboriginal Evidence Building in Partnership</b>	An initiative to support promising Aboriginal programs to embed data collection mechanisms and evidence building capabilities within their organisations
● <b>Multisystemic Therapy for Child Abuse and Neglect (MST-CAN®)</b>	An evidence-based, 24/7 home-based intensive treatment model for families where there has been physical abuse and/or neglect of a child aged 6-17
● <b>Functional Family Therapy through Child Welfare (FFT-CW®)</b>	A home-based treatment model designed for families with multiple risk factors, where there has been physical abuse and/or neglect of a child aged 0-17
● <b>LINKS Trauma Healing</b>	A trauma-focused, evidence-based support program for children and young people in out-of-home care to decrease trauma symptoms, improve psychological wellbeing and improve behavioural and emotional functioning
● <b>Treatment Foster Care Oregon (TFCO)</b>	A treatment program delivering an alternative to institutional, residential and group care placements for children and young people in OOH with severe emotional and behavioural disorders
● <b>OurSPACE</b>	A support service for children and young people aged under 15, who are in statutory kinship care or foster care, and whose placements are unstable
● <b>Thriving Families NSW (service solution)</b>	An outcomes-based wraparound service solution designed to support vulnerable young parents aged 25 and under, and their children aged 0-5
● <b>A Place to Go (service solution)</b>	An outcomes-based wraparound service solution designed to support children aged 10-17 entering and exiting the juvenile justice system, with a focus on children and young people in remand
